SUMMARY

Information Science and Engineering undergraduate with hands-on experience building full-stack and AI-powered applications using Python, FastAPI, React, and machine learning. Skilled in backend development, REST APIs, LLM integration, prompt engineering, and modern web technologies. Strong foundation in software development and problem-solving, with a passion for building practical, scalable applications and learning new technologies.

EXPERIENCE

Growth & Marketing Intern

Trinkerr

December 2023 - May 2025, Bengaluru, India

- Developed and contributed to a Java-based project, applying programming and problem-solving skills.
- Analyzed datasets in Excel to identify short-term trends and generate actionable insights.
- Applied Python to quantitative finance concepts and data-driven analysis.
- Authored and published technical and business-focused articles to improve audience engagement.

PROJECT

Onetap — Full-Stack Web Superapp

- React.js, Context API, Firebase, REST APIs, Vercel
- Built a responsive multi-module web app integrating real-time weather, news, and e-commerce functionalities.

API Optimization & Microservices Backend

- Python, FastAPI, REST APIs
- Designed RESTful backend services using FastAPI with modular endpoints, CORS integration, and API optimization techniques.
- Built scalable service architecture for product retrieval, recommendations, and request handling using third-party APIs.

AI Document Assistant — RAG-Based Q&A System

- Python, FastAPI, OpenAI API, RAG
- Built a document question-answering assistant using OpenAI APIs and Retrieval-Augmented Generation (RAG).
- Processed structured and unstructured documents to generate context-aware responses.

Credit Card Fraud Detection — Machine Learning

- Python, Scikit-learn, Pandas, NumPy, Matplotlib
- Developed a machine learning model to detect fraudulent credit card transactions using a real-world imbalanced dataset.

SKILLS

Languages: Python, Java, C, JavaScript, SQL

Frameworks & Libraries: React.js, FastAPI, Flask, Pandas, NumPy, Matplotlib, Scikit-learn

AI/ML: Machine Learning, Deep Learning, Prompt Engineering, LLM APIs, RAG

Web & Backend: REST APIs, React Context API, Firebase, Microservices

Databases: SQL, Firebase Firestore, Apache Cassandra

Tools: Git, Linux, Vercel

EDUCATION

Bachelor of Information Science and Engineering

Jain Deemed to be University • Bengaluru, India • 2023-2027 • 8.21 CGPA.
